

Name:

Animals Name:

Age:

Sex:

Breed:

Address/Yard:

Phone number:

Email address:

Vets Name and postcode:

History:

- 1) Does your horse have any medical conditions? E.g. heart conditions, skin conditions
- 2) Do you have an electrical implant (pacemaker)?
- 3) Is your horse pregnant?
- 4) Has your horse suffered from any previous injuries? If so, please provide further details below.

- 5) Is this session intended as part of your horse's maintenance or do you have specific concerns and areas you would like addressed?

I understand that massage or other modalities are never a replacement for proper veterinary care and understand that my veterinary physiotherapist does not diagnose conditions. If my horse is currently being seen by a veterinarian, I have cleared this work with the attending veterinarian to ensure physiotherapy is at this time appropriate for the horse.
